

# Manhattan Lodging Index

Second Quarter 2024

## Manhattan Lodging Performance Overview Q2 2024

The rate of growth in occupancy, average daily rate (“ADR”) and revenue per available room (“RevPAR”), while robust, continued to decelerate. Luxury hotel occupancy benefitted from increased demand, while ADR growth levels for lower priced properties continued to show significant improvements. For the overall Manhattan hotel market, Q1 RevPAR increased 9.4 percent while Q2 increased 6.8 percent, from the same respective periods in 2023.

"The Manhattan hotel market averaged an occupancy level of 87.2 percent in Q2 2024, solidifying a return to stabilized pre-covid levels. While RevPAR growth decelerated significantly throughout the first half of 2024, minimal hotel room supply additions over the next several years are expected to benefit existing hotels, potentially resulting in price compression in the market."

Source: PwC, based on STR data

# Manhattan Lodging Index Q2 2024

RevPAR increased 6.8 percent year-over-year during the second quarter of 2024. Occupancy and ADR continued to advance, albeit at a slower pace than Q1. Q2 annual increases in occupancy were highest in May – up 5.2 percent, and lowest in April – up 2.9 percent. Q2 2024 average occupancy and ADR increased to 87.2 percent and \$336.84, respectively, resulting in Manhattan RevPAR jumping to \$293.62 from \$274.89 in Q2 2023.

Of the four market classes tracked, luxury properties exhibited the most significant year-over-year increase in RevPAR - up 8.3 percent for the quarter, driven by a 6.3 percent increase in occupancy from 76.2 percent in Q2 2023 to 81.0 percent in Q2 2024 and a 1.8 percent increase in ADR from \$535.97 to \$545.79.

For upscale properties, quarterly occupancy grew by 2.4 percent and ADR by 3.2 percent year-over-year, resulting in a RevPAR increase of 5.7 percent from Q2 2023. Upper upscale properties experienced a 7.2 percent increase in RevPAR since Q2 2023, driven by a 4.1 percent increase in occupancy and a 3.0 percent increase in ADR. Upper-midscale properties posted a 6.6 percent increase in RevPAR year-over-year, attributable to an increase in occupancy of 2 percent and an increase in ADR of 4.5 percent. All four market classes saw RevPAR increase by at least 5 percent since Q2 2023, driven by increases in occupancy and ADR across all classes.

Of the five Manhattan neighborhoods, Lower Manhattan had the largest increase in RevPAR since Q2 2023, of 9.6 percent, driven by a 5.4 percent increase in occupancy and a 4.0 percent increase in ADR year-over-year. Midtown South RevPAR grew by 9.3 percent from \$262.97 in Q2 2023 to \$287.32 in Q2 2024, driven by a 3.9 percent increase in occupancy and a 5.2 percent increase in ADR year-over-year. Midtown West and Upper Manhattan posted RevPAR increases of 5.2 and 5.3 percent since Q2 2023, respectively. Midtown East had the lowest year-over-year increase in RevPAR of 5.1 percent.

During the second quarter, growth in occupancy at full-service hotels outpaced that of limited-service hotels, with year-over-year increases of 4.0 and 3.1 percent, respectively. RevPAR increased 7.3 percent since Q2 2023 for limited-service properties, while full-service hotels saw an increase of 6.9 percent over the same period.

RevPAR in the second quarter increased by 6.0 percent year-over-year for chain-affiliated hotels and 8.2 percent for independent hotels. The improvement in chain-affiliated hotels was driven by increases in both occupancy and ADR - up 4.1 and 1.8 percent, respectively, since Q2 2023. Relative to chain-affiliated properties, independent hotels experienced a more robust increase in ADR of 5.2 percent year-over-year but milder occupancy growth of 2.9 percent.

## Gross Metro Product and Consumer Price Index

During the second quarter of 2024, U.S. gross domestic product ("GDP") posted a seasonally adjusted annualized increase in economic activity of 2.8 percent, following an increase of 1.4 percent in the first quarter. According to the advance estimate released by the Bureau of Economic Analysis, the increase in GDP was primarily driven by consumer spending, nonresidential fixed investment, and private inventory investment. Furthermore, imports, a subtraction in the GDP calculation, increased during the quarter.

According to S&P Global, the forecasted gross metro product ("GMP") for the New York metro area in 2024 is expected to be approximately 2.0 percent above prior-year levels. In 2025, S&P Global predicts that GMP will experience an increase of 1.2 percent, followed by an increase of 1.6 percent in 2026 and 1.7 percent in 2027, as the economy re-stabilizes.

During the second quarter, New York City's consumer price index ("CPI") increased by an average of 4.0 percent, compared to 3.2 percent for the nation.

# Manhattan Lodging Index Q2 2024

## Office Market Statistics

Manhattan leasing activity continued its positive momentum in Q2 2024, with 6.3 million square feet in new leasing activity. The 6.3 million square feet in new leases, fueled by seven new leases greater than 100,000 square feet, marks the first time in seven quarters that new leasing exceeded 6.0 million square feet. The strong Q2 2024 leasing activity brings the year-to-date total to 11.4 million square feet, a 29.8% increase from the midyear 2023 output of 8.8 million square feet. The increase in leasing activity coincides with a 30.5% increase in average lease size, growing from 9,684 square feet in the prior quarter to 12,639 square feet in the current quarter.

According to Cushman & Wakefield's Q2 2024 MarketBeat Report, overall Manhattan office vacancy increased 20 basis points to 23.6 percent in Q2 2024. The marginal increase in vacancy comes due to only four blocks greater than 100,000 square feet entering the market, down from 13 blocks in Q1 2024. Additionally, no new construction or fully renovated buildings were completed during the quarter for the first time since Q3 2021. Sublease vacant space remained relatively stable, down 0.4% from Q2 2023, at 22.6 million square feet. Overall, office space absorption year-to-date through Q2 2024 was negative at 7.4 million square feet.

For the Midtown office market, new leasing activity hit a seven-quarter high of 4.3 million square feet during Q2 2024. Leasing activity in Midtown year-to-date totaled 7.9 million square feet – 29.5 percent higher year-over-year and outpacing the first 8 months of 2023, led by seven of the nine Midtown submarkets recording an uptick in YOY activity. Overall asking rents moderately increased to \$78.03 in Q2 2024 from \$77.05 in Q2 2023. During the second quarter, vacancy in this submarket increased 10 basis points from Q1 2024 to 22.9 percent, primarily driven by the introduction of a 394k square feet block of sublease space at 30 Hudson Yards.

For Midtown South, new leasing drove a significant increase in deal volume in Q2 2024, climbing to 1.4 million square feet, marking the first time since Q3 2022 that the submarket has surpassed 1.0 million square feet in leasing activity. The strong growth was fueled by a 337k square foot lease by American Eagle Outfitters at 63 Madison Avenue, representing the largest new Manhattan Lease of the quarter. Despite the uptick in leasing activity, overall vacancy in the submarket increased by 100 bps from Q1

2024 to 25.3%, primarily due to 154k square feet entering the market at 770 Broadway. Midtown South posted negative absorption of 781k square feet for the year. Overall, asking rents in the submarket ended the quarter at \$78.46, representing a 3.5% increase from Q2 2023.

For the Downtown office market, leasing activity decreased by 16.0% to 598k square feet during the quarter. The decline in leasing activity for the submarket brings annual year-to-date leasing activity to 1.3 million square feet, representing a decrease of 5.9% year-over-year. Vacancy decreased by 10 basis points from Q1 2024 to 24.6 percent, driven by an uptick in June demand, which reached a 12-month high of 317k square feet of leasing activity. Sublease vacant space increased by a modest 1.0% to 6.5 million square feet, down from nearly 6.7 million square feet as of Q2 2023. Class A asking rents and overall asking rents decreased to \$59.12 and \$55.62 per square foot, respectively, and year-to-date absorption was negative at 1.4 million square feet.

Looking forward, there is an expectation for the leasing pipeline to accelerate in the second half of 2024. Coupled with an expected increase in new constructions and more announcements about repositioning older properties, the bifurcation between Class A properties and overall office rents may continue. The construction pipeline outlook for 2024 appears to be promising, with an expected increase in new construction during Q3 and Q4 2024. It is also expected that some occupiers who have downsized their space requirements during the pandemic may consider expanding as office occupancies begin to show more stability.

# Manhattan Lodging Index Q2 2024

## Employment Trends

During the first half of 2024, while unemployment levels in New York City improved, the unemployment levels in the State increased compared to the previous year. According to the New York State Department of Labor, the seasonally-adjusted unemployment rate for the State averaged 4.2 percent during the quarter, an increase of 30 basis points from prior-year levels. For New York City, the seasonally adjusted unemployment rate decreased by 60 basis points from Q2 2023 levels to 4.8 percent. The share of the city’s working-age population (16+) who were either employed or looking for a job grew to 62.4 percent in June.

The overall unemployment rate for the nation increased from the prior quarter by 20 basis points and from the prior year by 40 basis points. The Q2 2024 unemployment rate averaged 4.0 percent (4.1 percent in June, 4.0 percent in May, and 3.9 percent in April).

As indicated by the New York State Department of Labor, New York City’s private sector employment rose by 53,900 jobs to 4,195,400 between June 2023 and June 2024.

Year-over-year job gains occurred in three of the nine sectors tracked by the New York State Department of Labor, with increases in the private education and health services sector, which gained 84,300 jobs, the leisure and hospitality sector, which gained 11,900 jobs, and the other services sector, which gained 400 jobs.

Declines occurred in the information sector, which lost 14,400 jobs; the trade, transportation, and utilities sector, which lost 9,600 jobs; professional and business services, which lost 7,600 jobs; the natural resources, mining, and construction sector, which lost 7,100 jobs; financial activities, which lost 2,700 jobs; and manufacturing, which lost 1,300 jobs.

## Gross Asking Rents and Vacancy Rates

Source: PwC, based on CBRE Econometric Advisors data

According to a report from Cushman & Wakefield, three key lease transactions occurred during the second quarter. These transactions are noted in the table below.

Tenant	Address	SF	Transaction Type
Bloomberg, L.P.	731 Lexington Avenue	946,815	Renewal
Willkie Farr Gallagher LLP	787 Seventh Avenue	352,000	Renewal
American Eagle Outfitters	63 Madison Avenue	337,085	New Lease

Source: Cushman & Wakefield

According to Real Capital Analytics (RCA), several notable office transactions occurred during the second quarter. There were approximately 22 transactions ranging in size from 4k square feet to 1.1 million square feet, with sales prices ranging from \$3.8 million to \$560.0 million.

The most expensive transaction, both in total price and price per square foot, was the sale of the fee ownership interest at 980 Madison Avenue, which closed in June. Sold by RFR Realty, this 135,000-square-foot building transacted for \$560 million. The primary tenants include Bloomberg Philanthropies, Gagosian Gallery, and Vince. The property's previous sale occurred in August 2004 for \$126 million. The five-story building was originally built in 1949 and renovated in 2014.

The largest transaction by square footage was the April sale of 110 Maiden Lane, which transacted for \$160 million. This 1.1 million-square-foot property, built in 1961, was purchased by Bushburg Properties from Rudin Management Company.

The largest transactions by sales price in April, May, and June are detailed below.

In June, Nuveen (US) sold The Gardens at 780, located at 780 3rd Ave, to Sovereign Partners for \$177 million, equating to \$362 per square foot. The 489,000-square-foot property was built in 1983 and contains 50 floors.

In May, Legion Investment Group acquired the property at 8-12 West 14th Street for \$57.5 million, or \$479 per square foot. This six-story property, built in 1946 and renovated in 2004, was sold by Rhodes Building Management, Arnold Penner Real Estate, Friedman Management Co, and Phillips International.

In April, Yellowstone Real Estate Investments acquired 1740 Broadway for \$185.9 million. The 604,000-square-foot property, built in 1950 and renovated in 2007, was formerly owned by Blackstone.

# Manhattan Lodging Index Q2 2024

## Air Traffic Statistics

During the second quarter of 2024, air traffic levels increased approximately 1.4 percent from prior-year levels. This represents the thirteenth consecutive quarter of year-over-year total passenger traffic growth, beginning with Q2 2021. Having served 38.2 million passengers during the second quarter, the three major New York metropolitan airports – Newark Liberty International Airport, LaGuardia International Airport, and John F. Kennedy International Airport – saw an increase of over 530k passengers from the same period last year. Additionally, the air traffic levels in the second quarter equated to 103.1 percent of the volume achieved in Q2 2019, reflecting a full recovery to pre-Covid levels of activity. International traffic increased approximately 6.8 percent from the 12.8 million international passengers traveling during Q2 2023. Domestic air travel finished the second quarter at 24.5 million passengers, having decreased slightly from 24.9 million during the same period last year. In June 2024, domestic air travel totaled 8.2 million passengers, surpassing the June 2023 mark of 8.0 million by 2.0 percent. However, in Q2 2024, domestic air travel fell short of prior year activity with a total of 24.5 million passengers, a decrease of 1.36 percent compared to Q2 2023 with 24.9 million passengers. The following chart displays second-quarter passenger traffic and growth data over the past twenty years.

## Recent Manhattan Hotel Transactions

Hotel transaction activity slowed in the first half of 2024, with five hotel sales reported compared to two hotel portfolio sales and seven individual hotel sales in the second half of 2023. According to RCA and CoStar, three of the hotels mentioned were full-service hotels, while the other two were limited-service hotels.

The highest price per key recorded was for the 64-unit Sonder Flatiron in Lower Manhattan. This hotel was sold in June by 1141 Realty Owner LLC to Azora Exan, LLC, for a total of \$47.8 million, or \$747k per key.

In Midtown East, the 134-unit Roger Smith Hotel was acquired by Holiday Inn Club Vacations Incorporated from Timeshare Acquisitions At Lexington LLC for \$30.3 million, or \$226k per key. The property, originally built in 1926 and renovated in 1988, was last sold in February 2022 for \$41.4 million.

Also located in Midtown East, U Hotel, was sold by Fantasia 373 Hotel (US) LLC to Hogwarts Capital for \$30.0 million. This 70-unit hotel, which was built in 1906 and renovated in 2007, was previously sold in April 2014 for \$37.0 million.

In Midtown West, the 56-unit Hudson River Hotel was acquired by Shashin Ghandhi from 36<sup>th</sup> Street Property Inc. for \$18.2 million, or \$325k per key. The property, originally built in 1999 and renovated in 2013, was last sold in October 2016 for \$18.5 million.

The lowest price per key recorded was for the 101-unit Hotel Elysee in Midtown East. This hotel was sold in January by BD Hotels to Hera Hospitality Property AG for a total of \$20.6 million, or \$203k per key.

Transaction Date	Hotel Name	Rooms	Transaction Price	Price Per Room
Jan- 24	Roger Smith Hotel	134	\$30,318,212	\$226,255
Jan-24	Hotel Elysee	101	\$20,599,000	\$203,950
Jun-24	Sonder Flatiron	64	\$47,826,296	\$747,286
Jun-24	Hudson River Hotel	56	\$18,200,000	\$325,000
Jun-24	U Hotel	70	\$30,000,000	\$428,571

## About the data

For information regarding this publication or for permission to print this report in whole or in part, please contact Maridel Gutierrez at [maridel.gonzalezgutierrez@pwc.com](mailto:maridel.gonzalezgutierrez@pwc.com) or email us at [us\\_contact\\_hospitality@pwc.com](mailto:us_contact_hospitality@pwc.com).

Some of the information contained herein is based on a voluntary survey and is not a statistical sample. Depending on the number of respondents, the information may not be representative of the total respective sub-classifications. Indications of percentage increase or decrease are representative of the performance of the participating sample for this year compared to last year. Although not a statistical sample, the information may be characteristic of general trends in the sector.
